Technical Specification

1. PUREION Technology

PureSoft fully automatic water softener works on Ion Exchange technology, High quality, long lasting resin blocks calcium and magnesium and giving you soft water with minimal maintenance.

2. Programmability

World's best automatic multi programmable control valves make PureSoft softener unique.

3. Auto Regeneration

PureSoft works with Zero manual intervention and truly automatic.

Parameter	PureSoft 1000	PureSoft 2000	PureSoft 3000
Water flow (Max)	1000 LPH	2000 LPH	3000 LPH
Inlet water pressure	1.5 – 3.5 kg/cm2		
Inlet water hardness as CaCO3	800 PPM	800 PPM	800 PPM
Treated water hardness as CaCO3	< 50 PPM	< 50 PPM	< 50PPM
Inlet / Outlet connection size	3/4 Inch	3/4 Inch	1 Inch
Salt capacity	8 kg	20 kg	22 Kg
Resin Quantity	9 Litre	25 Litre	32 Litre
Process Valve	Fully Automatic Programmable		
Salt required / recharge	1.2 Kg	3.25 Kg	4.20 Kg
Treated water output at 200 PPM of hardness	2400 litre	7000 litre	8800 litre
Electric supply	230 V AC/ 6 amp		

Features

- 1. Freedom from scaling
- 2. Water using appliances last longer
- 3. Protects your skin from dryness
- 4. Protects your hair from fuzziness
- 5. Intelligent auto regeneration capacity
- 6. High resin life
- 7. Trouble free portable design
- 8. Convenient operation
